Press release

COFLE APPOINTS ENGINEER DARIO FRIGERIO AS THE NEW DIRECTOR OF THE OEM DIVISION

Trezzo sull'Adda (MI), January 16, 2024 – Cofle S.p.A. (EGM: CFL) - a leading company in the design, production, and worldwide marketing of command systems and control cables for the off-road vehicles, automotive, and automotive aftermarket sectors - announces the appointment of Dario Frigerio as Director of the OEM Division (original control systems and cables).

Joining Cofle in 2018, Engineer Dario Frigerio, aged 37, has developed his already solid technical skills over the years, making valuable contributions in the development of solutions and project management, thus proving to be the ideal figure to lead the OEM Division. Engineer Frigerio's enthusiasm for technology and his pragmatic approach have been evident in his professional journey at Cofle. As Director of the OEM Division, he will commit to advancing goals of innovation, efficiency, and sustainability.

After graduating in Chemical Engineering from the Politecnico di Milano, Engineer Frigerio held key roles in various companies. He began his career as a Process & Proposal Engineer at ECISGROUP S.p.A., then moved on to become a Technical Designer at ABB, and later a Development Engineer at Freudenberg Home and Cleaning Solutions. Since 2018, he has embarked on a new professional phase at Cofle, initially as Technical Sales Manager and currently holds the position of Director of the OEM Division.

Walter Barbieri, President and CEO of Cofle, commented on the recent appointment: *“We are thrilled to welcome Engineer Dario Frigerio in his new position as Director of the OEM Division. Since joining Cofle in 2018, he has consistently demonstrated deep technical expertise and remarkable management ability. His professional growth within our company has been exemplary, and I am confident that with his pragmatic approach and passion for technology, he will significantly contribute to our ongoing evolution and innovation. This appointment represents an important step in the renewal and reorganization process of Cofle, strengthening our commitment to a future based on competence, motivation, and internal growth. I would also like to express my sincere thanks to Gianni Crespi for his valuable work as OEM Director. His commitment and dedication have had a significant and lasting impact both on our Division and on the company as a whole. We are confident that Engineer Frigerio will bring forward new ideas and perspectives, further consolidating Cofle's position in the global market”*.

About Cofle

The Cofle's Group, founded in 1964, is a multinational company specializing in the design, production and worldwide marketing of cables and remote control systems for the off-road vehicles, automotive and automotive after market sectors.
